"I've created a cool collection of designs in my Figma file, showcasing my creativity for college events. The 'OPNECODE' section has posters and banners I made for an open-source event. I paid close attention to make them look awesome.

For 'EFFERVESCENCE,' our college fest, I took charge of designing event posters, brochures, and sponsorship materials. My designs helped promote the events and attract sponsors.

This portfolio shows how I enjoy making things look good and how I can contribute to successful events. I'm excited to bring my design skills to new opportunities."
